

## Release Plan

### Heading:

Product Name: Slug&Found

Release Name: Second Release

Release Date: July 1, 2019

Revision Number: 2

- Revision Date: 7/8/19

### High Level Goals:

Allowing users a platform to post lost/found items seen around campus

### User Stories:

- *Sprint 1:*
  1. As a user, I want the ability to create an account and login so that I can view items that are lost/found.
  2. As a user who lost/found something, I want the ability to upload an image of an item I found/lost so that the person who is looking/posting the item can identify exactly what it is.
  3. As a user who lost/found an item, I want the ability to view previous items that are found/lost so that I can see if someone has posted about said item previously and contact them through it.
- *Sprint 2:*
  1. As a user who lost/found something, I want the ability to write a description of an item I found/lost so that I can return/claim the property to its rightful owner.
  3. As a user, I want the ability to view more details about an item's post that was found/lost so that I can determine details such as location, color, etc. about the item.
- *Sprint 3:*
  1. As a user, I want the ability to message a user that found an item I found/lost privately.
  2. As a user, I want to be able to search through posts so that I can look for specific details, rather than scrolling through posts.

### Product Backlog:

As a user, I want the ability to create an account and login so that I can view items that are lost/found.

As a user who lost/found something, I want the ability to upload an image of an item I found/lost so that the person who is looking/posting the item can identify exactly what it is.

As a user who lost/found an item, I want the ability to view previous items that are found/lost so that I can see if someone has posted about said item previously and contact them through it.

As a user, I want to be able to see all the pictures of items in a gallery, so that I can easily spot my lost item.

As a user, I want to be able to upload posts(pictures & details) that I find on campus, so that it can be easier for other students to find lost items.

As a user, I want to be able to view messages that I've sent to other users so that I can see if someone found my lost item.

As a user, I want to navigate through the web pages so that I can parse through the website in a convenient and organized manner.

As a user, I want to be able to message other users about lost or found items, so that I can claim/give back the item.

As a user, I want to be able to see all the pictures of items found/lost in a gallery, so that I can easily spot my lost item.

As a user, I want to be able to search through all the posts, so that I can find a specific item.

As a user, I want to be able to have a profile page, so that I can view mine and other users contact information.

TODO:

As a user, I want the ability to see an archive of items that have been claimed in the case that someone else has retrieved one of my belongings by accident.

As a user, I want the ability to view the site on my mobile phone so I can see if my item was found.

As a user, I want the ability to get a notification when someone sends me a message.

As a user, I want the ability to use a mobile app for Android.
