

Sprint 2 Report - Slug N Found

July 8, 2019

Names: Jacqueline Montes - De Leon, Jasleen Kaur, Gurpreet Singh, Steven Dinh, Cesar Amaya, Haize Zhang

Actions to Stop Doing:

Our team has decided to stop the process of coding on separate platforms, because we need to merge the code on-time to bring the whole project together. This way we can find the problems in merging before time, and we will have enough time to fix the problem before the final presentation.

Actions to Start Doing:

Our team has mastered the skill of dividing the work in a great way to actually finish most of the given tasks on-time. We would like to continue this process of breaking down the tasks to the minor details and then divide the responsibility of each task to our fellow group members.

Actions to Keep Doing:

Our group has shown a great spirit of teamwork throughout the process of Sprint #2. We would like to continue our collaboration with each in the same manner. The suggestions from our class TAs has been really good, and our team works really hard to implement the new suggestions right away that are given to us after every TA meeting. We would like to lead ourselves ahead in the same spirit.

Work Completed:

1. As a user, I want to be able to see all the pictures of items in a gallery, so that I can easily spot my lost item.
2. As a user, I want to be able to upload posts(pictures & details) that I find on campus, so that it can be easier for other students to find lost items.
3. As a user, I want to be able to view messages that I've sent to other users so that I can see if someone found my lost item.
4. As a user, I want to navigate through the web pages so that I can parse through the website in a convenient and organized manner
 - Task 1- Profile Page
 - Task 2- UI Design, Sidebar

Work Not Completed:

UI design is not finished to the point to implement some of the features of the all the user stories of Sprint #2.

Work Completion Rate:

Total Number of Completed User Stories:

Ideal Number of Hours: 30 hours

Total Number of Days: 8

User Stories/Day: 0.5

Sprint #2 - Burn up Chart
