Heading: Sprint #3 Plan

Team Name: Slug&Found

Sprint Completion Due Date: July 22nd, 2019

Goal: By then end of this sprint, we aim to have a usable and polished web app with most features completed.

Task listing, organized by user story: This section lists the user stories, in priority order from most important (top) to least important (bottom). Within each user story, there needs to be a list of tasks required to implement the user story, along with the time estimate for each tasks (preferably less than or equal to 6 ideal hours). This should look like:

User Story 1: As a user, I want to be able to message other users about lost or found items, so that I can claim/give back the item.

- Task 1 - Backend, send messages to firebase, pull from firebase.

User Story 2: As a user, I want to be able to search through all the posts, so that I can find a specific item.

- Task 1 - Put tags on each item/post.
- Task 2 - Search bar that will search through all the tags.

User Story 3: As a user, I want to be able to have a profile page, so that I can view mine and other users contact information.

- Task 1 - Profile Page with basic information.
- Task 2 - Upload a profile picture.

User Story 4: As a user, I want to be able to see all the pictures of items found/lost in a gallery, so that I can easily spot my lost item.

- Task 1 - UI design

Team roles: Give a listing of all team members. Next to the team member, list their role(s) for this sprint. Assign each person to at least one role (for example, this role might be "Developer"). This looks like:

Jackie: Product Owner

Jasleen: Developer

Gurpreet: Developer

Haize: Developer

Steven: Scrum Master

Cesar: Developer

Initial Task Assignment:

Jackie: User Story 2

Jasleen: User Story 2

Gurpreet: User Story 3-1
