Sprint 3 Report
Slug N Found
July 22, 2019
Team Members: Jacqueline Montes - De Leon, Jasleen Kaur, Gurpreet Singh, Steven Van Dinh, Cesar Amaya, Haize Zhang

Actions to Stop Doing:

Our team has decided to stop solely working individually and instead ask for help and work together by meeting up in person to code. This eliminates confusion between branches and how a certain snippet of code works as we can all explain what we are doing to each other while we are coding.

Actions to Start Doing:

Our team needs to start cleaning up the code and making everything look neater. We need to do this because the final sprint is coming to an end and we need to have a presentable product.

Actions to Keep Doing:

Our team needs to keep communicating and helping each other with any problems they encounter while working on the project.

Work Completed:
1. As a user, I want to be able to message other users about lost or found items, so that I can claim/give back the item.
2. As a user, I want to be able to see all the pictures of items found/lost in a gallery, so that I can easily spot my lost item.
3. As a user, I want to be able to search through all the posts, so that I can find a specific item.
4. As a user, I want to be able to have a profile page, so that I can view mine and other users contact information

Work Not Completed:
1. UI still needs to be polished.

Work Completion Rate:
Total Number of Completed User Stories: 4
Total Number of Hours: 32
Total Number of Days: 6
User Stories/Days: 0.66
